I'd like to call Karen Plunkett, Sylvia Pierce and

10 Donna Jones.

11 MS. PLUNKETT: I recognize that whether we like
12 it or not, nuclear waste may be transported to our community.
13 We need to be providing information and needed protection for
14 our health and safety and get some compensation for our
15 community.

16 I agree with others that have spoken in the
17 previous meeting that I'd like -- I wish that we could have the
18 matter taken care of sooner so that we don't waste so much of
19 our tax money on this issue over so many years.

20 MR. LAWSON: Thank you.
